#### A Source of Health Knowledge: UpToDate

UpToDate® is an evidence-based, physician-authored clinical decision support resource which provides the right point-of-care decisions. More than 5,100 world-renowned physician authors, edit a rigorous editorial process to synthesize the most recent medical information into recommendations that are proven to improve patient care and quality.

For more than 20 years, clinicians around the world have relied on UpToDate as their primary knowledge at the point of care. The knowledge contained in UpToDate is evidence-based and it is not merely an aggregation and report of the latest research; UpToDate presents a concise synthesis of the evidence, followed by recommendations that can be acted on at the point of care. UpToDate is a publishing platform with the rigor of a sophisticated editorial process managed by a team of physician authors and editors, renowned leaders in their specialties.

In addition to the unparalleled breadth and depth of its content, UpToDate offers subscription tools and graphics, complementary patient information articles, and much more.

The Ministry of Health provides UpToDate® content to all clinicians in Saudi Arabia for free in all locations in Saudi Arabia through computer and mobile devices.
